

THE ENGAGEMENT SESSION GUIDE

By Alex Tongol Photography

THE EXPERIENCE

As your wedding photographer, I want your engagement session to be a memorable experience that reflects your unique love story. Whether you envision an urban setting with skyline views, a scenic park with natural beauty, or something meaningful to both of you, I'm here to help bring that vision to life. Below, you'll find a detailed pricing guide for engagement sessions, along with some of my favorite locations around the city. To inspire your session, I've included photo examples from past shoots, showcasing the variety of stunning backdrops and styles we can explore together.

This session is such a VITAL part of my process, and I don't ever recommend skipping it, even if you've already done an engagement session with another photographer. It's where I teach you the fundamentals of posing that flatter YOUR specific body types, as well as all the little tips and tricks that help you look natural in front of the camera. I learn YOUR best angles and get to know you both as a couple. These are things that should never be taught on your wedding day, when so many other things are happening at once. You also get to experience firsthand how I shoot, how I handle posing and lighting situations, and we get comfortable working together before the most important day of your life. I can give you the whole spiel if you're curious, but please trust when I say that it matters way more than you may realize.
